

Aqua Match

Matchmaking opportunities for European companies during Aquatech China 2019

The EU Project Innovation Centre (EUPIC), the Enterprise Europe Network (EEN) and China Europe Water Platform (CEWP) offer you an opportunity to meet potential new collaborators for your business ventures, during Aquatech China 2019.

If you are looking for new business partners in the water technology industry, please fill in the form on the website and send it to J.liu@rai.nl.

Meetings take place during the trade show at the 4th of June in the afternoon at the booths of exhibitors or in the VIP room of the trade show.

EU Project Innovation Centre (EUPIC)

The EU Project Innovation Centre (EUPIC) is an organization established in Chengdu (China) in 2006 under the Asia Invest II Project, a European Union initiative promoting and supporting business cooperation between the EU and Asia.

EUPIC is a comprehensive platform promoting trade, investment and technical cooperation between the EU and China. EUPIC promotes technology innovation and technology transfer among enterprises, universities, science and technology parks, industrial clusters and governmental organizations. With its extensive network in both the EU and in China and professional resources, EUPIC is also supporting the soft landing of EU companies to China, while at the same time helping the internationalization strategies of Chinese companies.

Enterprise Europe Network (EEN)

The Enterprise Europe Network (EEN) was launched in February 2008 by the Commission's Directorate-General for Enterprise and Industry. EEN provides SMEs with services in terms of technology innovation, industrialization, and trade support as the most influential service platform with the widest coverage. EEN involves more than 600 member organizations including chambers of commerce and industry, technology centers, universities, research institutes and development agencies at national, regional, provincial and municipal level as well as over 1 million SMEs from 54 countries.

China Europe Water Platform (CEWP)

China Europe Water Platform, a regional component of the EU Water Initiative, promotes policy dialogue, joint research and business development in the water sector. This is implemented through analysis, workshops, conferences, study tours and joint projects to promote exchange of experiences, transfer of technology and improvement of opportunities for business and research.
