2016 Winner *OriginClear* meets prospective Chinese partners

2016 Winner *PaveDrain* interviewed by media

Two awards were given in 2016

ABOUT

中国国际蓝科创新奖旨为中国和国际的创新环保技术公司搭建平台，获得与国际专家、企业和投资商交流机会，树立业界领导地位。

此年度蓝科奖为企业提供了创新技术展示平台，证明其市场可接受性。获得与国际最新创新清洁技术信息，与专业清洁技术投资人交流，以及与海外技术公司合作的机会。

The China BlueTech™ Awards is a platform for international water and wastewater technology companies to establish their technology leadership and China market readiness. Technology companies of all sizes may compete, but it's ultimately up to the Chinese judges to determine which are selected as finalists and category winners.

Many technology companies compete as part of their China market research and China business development.

(Above) Finalist Tim Tangredi of Dais Analytics provides an introduction to Dais, and explains why judges selected Dais as a Finalist.

“Our strategic partnership with Aquatech China includes the *Innovation Pavilion*, which is a top destination at the expo for Chinese water corporates, investors, and regulators.

~ Paul O’Callaghan,
BlueTech Research, Co-organizer

Technology finalists are invited to have a booth in the ‘*Innovation Pavilion*’ at Aquatech China in Shanghai, May 31- June 2, 2018.

与上海国际水展Aquatech China 强强联合。此次中国国际蓝科奖与2017年6月7-9号的上海国际水展Aquatech China联合举办，上海国际水展主办方特为蓝科奖设置创新馆/

Above: John Robinson congratulates Dan Cho on Onvector's Market Readiness Award.

“It was an honor for to win the award for Market Readiness at the 2017 China BlueTech Awards. Overall Aquatech China 2017 exceeded my expectations. The booth we had at the China BlueTech Awards Innovation Pavilion enabled us to gain access to hundreds of local and national business contacts attending the conference, many of who are very excited about using our technology. Onvector was also able to leverage its participation in the China BlueTech Awards to refine, strengthen and ultimately start accelerating our China strategy.”

~ Daniel Cho, CEO of Onvector

2017 PARTICIPANT FEEDBACK

"I would like to thank BlueTech Research, Mandarin Environment and Aquatech China for making it a successful event for Element Six. Exploring the China market for our wastewater treatment technology has been on our strategy roadmap, and a primary goal for the E6 Water Team in 2017. The China BlueTech Awards provided us with the opportunity to showcase our product and we hope will kick-start our China product launch. In the Innovation Pavilion we met with many Chinese companies who are looking for industrial treatment methods for their waste streams."

~ Hossein Zarrin, Head of Water Technologies, Element Six

"It was a great honor and privilege to be selected as a finalist for the 2017 China BlueTech Awards. The awards opened doors to several potential opportunities in China, as well as created introductions with various partners and investors. Furthermore, the ability to have a physical presence at Aquatech China and meet with these people face-to-face was priceless. As a company, we see tremendous opportunity in the Chinese market and have plans to develop the appropriate partnerships to enter the market with strength in 2018."

~ Chris Milligan, PE, CEO, President,

KEY DATES

January 31, 2018

Deadline for Technology Submissions

Any company interested in submitting a technology for the China BlueTech Awards must have submitted their technology by now.

February - March 2018

Review and Scoring by Chinese Judges

Chinese judges score international water technologies for China market readiness and innovation.

April 15, 2018

Finalists Technologies Announced

May 31, 2018

China BlueTech Awards – Winners Announcement

The 2018 China BlueTech Awards will announce category winners. Guests will include Chinese environmental corporates, clean-tech investors, government, university, and other industry influencers.

ADDITIONAL INFORMATION

Background

The BlueTech™ Awards is an internationally recognized platform entering its 8th year. For China, the BlueTech™ Awards uses its expertise and experience in assessing winning companies to identify the most compelling technologies for the China market.

Award Categories

Testing & Monitoring, Industrial Wastewater Treatment, Biosolids Treatment.

Pre-Screening

Candidate technology companies must have:

- 1) at least one successful commercial scale pilot;
- 2) capacity to fulfill a purchase order within a year of the 2018 China BlueTech™ Awards.

Judges and scoring

Technologies will be scored by Chinese judges based on factors related to 'readiness' for the China market. These factors include: 1) scalability, 2) competitiveness, 3) management team strength, 4) sustainable advantage over time, and 5) other important market factors.

Award Winners

The 2018 China BlueTech™ Award winners will receive: 1) pilot opportunities with Strategic Partners, 2) media coverage in Chinese and English, and 3) an trophy award and recognition at the awards ceremony.

More details can be found on the China BlueTech Awards website.
